

Minutes of meeting

Kavya Nerella

August 24th, 2014

Date and time:

- Time - 4 to 4:30 pm
- Date - August 11th 2014

Attendees:

- Kavya Nerella
- Pooja Shamili
- Vishal Gupta
- Shubham Ghiya

Agenda:

- Introductory meeting

Minutes:

- Clients Vision – To be the best defect management software in India in the coming 3 to 4 years. His aim is to make his risk capturing model complete and comprehensive.
- Mentioned Blazemeter as the American competitor to the performance testing tool about to be built.
- The client showed us the functional testing tool they have built. We were shown a test example in which he recorded the test case and a final output showing performance with respect to different attributes was displayed. The testing with respect to different platforms was also possible in the tool they have built.
- Client mentioned the technologies they were using: webapp2, Google app engine, python and Flask microframework. He made a mention of angular.js for front end and MongoDB for back end. No particular mention of languages we were supposed to be using.
- Tasks:
 - 1) Try out Locust
 - 2) Try out Blazemeter.

Date of the next meeting:

- 4pm August 14th 2014
